The following is a KSCO commentary. Here is Kay Zwerling:

Have you noticed that a number of very visible conservative Americans are loudly determined to gather us together to force our weakened President to eliminate Obamacare – which his family and all of Congress would never participate in because it is inferior for them – but “good” for us?

We the People together can help make the Obama health fiasco go away.

Listen to the following little gem, which tells the story so well and so concisely. It is called “Here’s the reality.” I think it has been floating around, but it is really worth repeating.

Let me get this straight…

We are going to be gifted with a healthcare plan that we are forced to purchase and fined if we do not, which covers at least ten million more people – I say it is more like 30 million people, without adding a single new doctor, but provides for 16,000 new IRS agents. It was written by a committee whose chairman says he does not understand it. It was passed by a Congress that did not read it, but exempted themselves from it, and it was signed by a President who smokes, with funding administered by a Treasury Chief who did not pay his taxes, for which we will be taxed for four years before any benefits take effect, and by a government which has already bankrupted Social Security and Medicare, all to be overseen by a Surgeon General who is obese, and financed by a Country that is broke. What the heck could possibly go wrong?!

For KSCO, this is Kay Zwerling.
