The following is a KSCO commentary. Here is Kay Zwerling:

I wrote this in April 2006, and it is in my book, and it is about illegal immigration.

Weighing in on the present immigration mess – first close the borders, ignore the marchers who wish to undermine our laws, those here illegally must obey the laws, must learn English, apply for citizenship, and wait the same amount of time as those who come in legally.

No drivers' license, no voting rights until they become legal citizens.

That is what I think. No more amnesty. Furthermore, no more voting ballots in any language other than English – it is idiotic. No more pandering to foreign newcomers.

All of these related troubles stem from weakling leaders in both political parties whose main concern is, and has always been, re-election and vying for newcomers' votes.

Those leaders willingly left the borders open. Both political parties for over two decades are responsible for the 11 million illegals here. Actually, now, seven years later, there are even more than 11 million illegals here.

Thank you President Ford, thank you George Herbert Walker Bush, thank you President Clinton, and George W., for your deliberate failures!

Since the word felon has been used so loosely, and then crossed out, I submit it is our

delinquent leaders, Presidents, and Congress, who by their inaction in upholding the laws of our land, are the real felons.

And, another thing – the tail must stop wagging the dog. About the UCSC student protest to the military recruiters being on campus – the students should be expelled for leaving their classes and We the People should withdraw our public funds helping them.

They are in school to learn their subject matter and not to make policy for the university and the Country.

And, the wimpy delinquent faculty better shape up, or they should be fired! And, that the Regents who approve the enormous salaries and bonuses to upper employees while denying raises to the lowest employees who keep the university functioning – that is wrong! The Regents should be replaced!

Better still maybe the public universities which We the People support who have 85% liberal professors brainwashing our children should be closed.

For KSCO, this is Kay Zwerling.
