Monologue

Dr. Wallach starts the show today discussing the statistics surrounding medical mistakes that occur in the U.S. each year. According the Journal of the American Medical Association and the CDC (Centers for Disease Prevention and Control) some 15 million Americans are killed, injured and infected every year. Doc states that if this were the airline industry no one would ever fly.

Pearls of Wisdom

Doug Winfrey and Dr. Wallach discuss a news article regarding a surgeon who has written a book exposing the "code of silence" within the medical industry. The surgeon from Johns Hopkins Hospital in Baltimore, Dr. Marty Makary's book explains how doctors don't tell anyone about bad doctors or mistakes they witness. Also discussing how greedy doctors and hospitals take sales commissions from drug and medical device makers.
