Obamacare.

The following is a KSCO commentary. Here is Kay Zwerling:
To continue about Obamacare, it appears we now have a Supreme Court that has little respect for the U.S. Constitution. They simply do whatever they want to do, and make up whatever reasons they can to justify their decisions.
That sounds really bad, but that is the truth. Thanks to this Supreme Court, we are stuck with Obamacare – at least for now.
I will continue with the rest of the 15 reasons why Obamacare is a disaster:
#6. Obamacare is going to impose nightmarish paperwork burdens on doctors, hospitals, and the rest of the healthcare system. This will significantly increase our healthcare costs as a nation.
#7. Obamacare will send health insurance premiums soaring. This is especially true for younger Americans.
#8. Many small businesses will be crushed by the provisions in Obamacare requiring them to provide expensive health insurance coverage for their employees.
#9. Obamacare will make the emerging doctor shortage in America much worse – surveys found we could see hundreds of thousands of doctors leave the medical profession because of

#10. Obamacare has already forced the cancellation of dozens of doctor-owned hospitals.
#11. To fully implement all Obamacare provisions, hoards of new government bureaucrats will be required.
#12. You will wait much longer to see a doctor. In Massachusetts, the wait grew from 33 days to over 55 days.
#13. With Obamacare, you pay full price for life-saving drugs, but life-ending drugs are free!
#14. Obamacare will add 16 million new people to Medicaid roles. Law abiding American taxpayers will be paying their costs.
And finally,
#15. Congressional budget office estimates Obamacare will add over \$1 trillion to government spending over the next decade.
I believe that this Obama tool to achieve his ultimate goal means that Obama would like to bankrupt and destroy America. The best way we can overlook this is to not vote him into office in November.
Dear Listeners,
We the People have reason to be very worried about the direction of our beloved U.S.

If Obama remains in office for another four years, many changes will occur which we will surely not like.

Obama totally on his own took out of our Medicare billions of dollars and put them into Obamacare, which will destroy our Country.

So, when you go to the polls, remember – think very carefully what kind of government you really want, and how much you value your current freedom!

For KSCO, this is Kay Zwerling.
