Monologue

Dr. Wallach talks about the importance of supplemental antioxidants for good health. Outlining several of the Youngevity products that are rich in antioxidants.

Pearls of Wisdom

Doug Winfrey and Dr. Wallach discuss two recent news articles. The first concerns cell phones and hospitals. Hospitals have had a cell phone ban for years a recent study done at the Mayo Clinic found that this policy is groundless. However, other research has found that 'electronic article surveillance' systems in retail stores do cause problems. Mainly with implantable devices such as pace makers and cardiac defibrulators. A second article regarding a dramatic rise in type II diabetes in Asian populations has the medical community worried about an epidemic.

Callers

- Brooke's daughter has been experiencing dizziness.
- Yvonne is experiencing all of the symptoms of a urinary tract infections although all tests have been negative.
 - Lydia has questions concerning hypertension.
 - Sandra has been diagnosed with acute optic neuritis.
